## Regarding the problems with the public release of the Kumamoto Earthquake main shock special survey data

Writer: Hiroshi Ogawa Submission time: Wednesday, September 27th, 2017 10:23

September 27th, 2017

To whom it may concern

Japan Society of Civil Engineers Earthquake Engineering Committee  
Committee Chairman Sumio Sawada  
Committee Member Hiroyuki Goto  
Committee Member Masayuki Yoshimi

To whom it may concern. I hope this correspondence finds you well.

Regarding the problems with the Kumamoto Earthquake main shock special survey data made public in the paper by Hata, Goto and Yoshimi (SRL, 2016), an anonymous person supplied the following information to the Earthquake Engineering Committee.

These contents are of the utmost importance, so please circulate them to concerned parties.  
We have confirmed that there are no errors within these furnished contents.

Furthermore, this information is being treated seriously, and dealing with it will be done publicly and the measures to be taken are currently under evaluation.

Sincerely

Record
