Dear Dr. Ghali

I apologize if there has been any confusion regarding the report that I sent. The investigation committee and the Deciding Official did not make any findings of research misconduct against Dr. Koul. There were some improvements to be made at all levels within this institution but there was no finding of research misconduct.

The University of Colorado Denver had jurisdiction over this issue as the data relates to work conducted on behalf of this institution. The only reason to provide the report was to indicate that Dr. Koul was not found to have conducted research misconduct and to ask that Dr. Koul learns from the experience, as has the institution, and puts more controls in place as recommended in the report.

If you have any questions or concerns regarding the report please do not hesitate to contact me.

Thanks

Alison Lakin
