Dear Dr Phillips,

I trust this message finds you well.

I am writing to update you on your manuscript currently under consideration at Frontiers in Pharmacology, "SEVERE LIVER INJURY DUE TO THE PROPRIETARY HERBAL LIV.52® -CLINICAL OUTCOMES, TOXICOLOGY, AND CRITICAL REVIEW OF LITERATURE".

Thank you once again for responding to our queries below.

Having reviewed the situation in more detail, we regret to inform you that we have decided to place the publication of the article on hold until the legal proceedings in India have been resolved. To explain, based on the information that we have received, we have been advised that publication of the article could already be covered by the current court order, or that the claimant will most likely take measures to this effect. Therefore, until the legal proceedings have been resolved, we will proceed to withdraw your article temporarily from the publication process.

Once the legal proceedings have been concluded, we would of course be happy to reexamine the position. Please kindly keep us informed once the situation has been resolved.

We understand that this may not be the outcome you were hoping for, but trust that you understand our position. We would like to thank you for your patience and cooperation in this matter.

Best wishes,

Laura Johnson, PhD
